PROFILE

ServiceNow developer at DXC Technology, building and automating enterprise applications since May 2025. Certified across CSA, CAD, CIS-ITSM and CIS Data Foundations, with delivery experience spanning ITSM, CSM and ERP package applications, from gathering requirements to shipping tested configuration and automation.

EXPERIENCE

Analyst I – ERP Package Applications (ServiceNow Developer)

Aug 2026 – Present

DXC Technology · Saudi Arabia · On-site

- Collaborate with technical and business teams to troubleshoot issues and resolve incidents across ERP package applications.
- Maintain configurations, integrations and data flows between ERP and adjacent enterprise platforms.
- Translate business requirements into tested, documented changes delivered through the standard change process.

Software Analyst II – ServiceNow Developer

May 2025 – Aug 2026

DXC Technology · Riyadh, Saudi Arabia

- Delivered ITSM and CSM work across Incident, Problem, Change, Request and Case Management.
- Built and customised Business Rules, Client Scripts, UI Policies, Flows and workflow automations.
- Designed and optimised Database Views (DBVs) and performance-focused reports and dashboards.
- Worked directly with stakeholders to gather requirements and turn them into scalable ServiceNow solutions.

Back-End Developer Intern

Jun 2023 – Aug 2023

SBS – Specialized Business Solutions · Riyadh, Saudi Arabia

- Developed backend services and integrated RESTful APIs, and optimised SQL database queries.

EDUCATION

BSc in Software Engineering – Second Honours

Aug 2019 – Jun 2024

King Fahd University of Petroleum & Minerals · Dhahran, Saudi Arabia

SERVICENOW CERTIFICATIONS

- Certified System Administrator (CSA)
- Certified Application Developer (CAD)
- Certified Implementation Specialist – ITSM (CIS-ITSM)
- Certified Implementation Specialist – Data Foundations (CMDB and CSDM)
